

Premium Flexibility

BLINDSPACE® M SERIES DATASHEET

Modular solutions to conceal blinds with add-on accessories

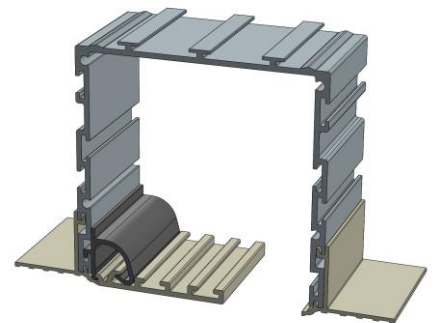

Blindspace M Series consists of extruded aluminium back boxes and accessories for multiple options and configurations.

The M Series is used for any type of window and can be installed in any direction. The position of the hinge can be changed after installation providing full flexibility.

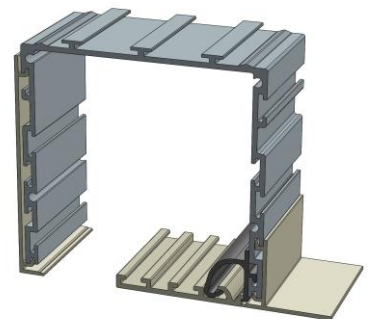

The box is installed during construction and the cover is either powder coated or painted at site to match the interior perfectly.

The M Series is prepared for different wall and ceiling types and can be fixed to vertical or horizontal surfaces.

There are two sizes available, 100x100mm and 130x130mm. With each size there are side boxes 70mm deep.

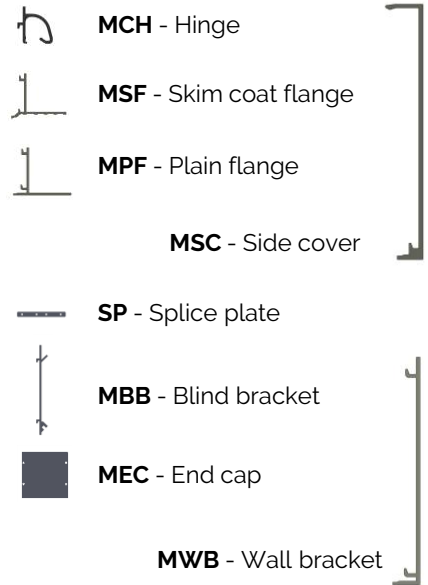

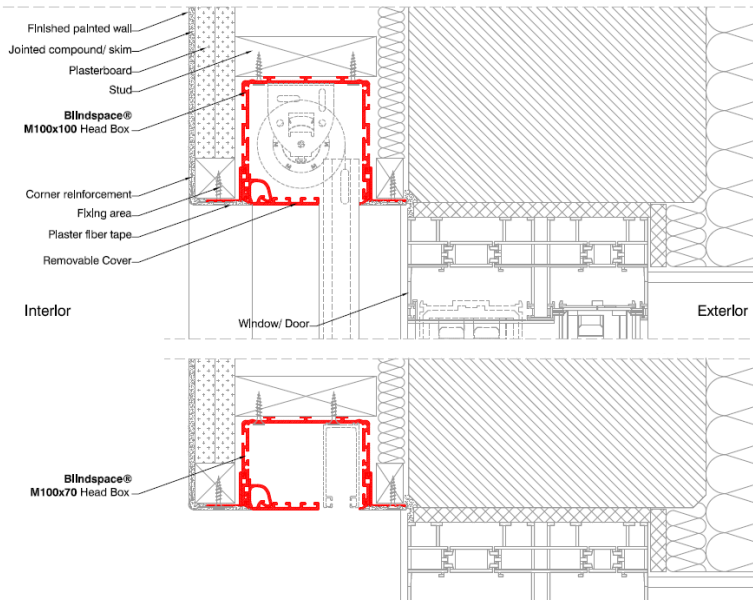

M100x100
Config: MSF, MCH, MSF

M100x100
Config: MWB, MCH, MPF
